SUMMARY

I was born in Cuba, and moved to Barcelona at the age of 19, after getting a full scholarship to study Computer Science at Harbour.Space University. I'm passionate about Mathematics, Computing and Machine Learning and I enjoy solving algorithmic problems. I believe that having a solid understanding of the areas where I work is the key to have a successful result.

WORK EXPERIENCE

leaguesofcode.com
Backend Software Developer

CURRENT, FROM JULY 2021 (PT)

I'm part of the back-end team that is building an E-learning platform, with an automatic grading system for training the next generations of champions in International Programming Olympiads.

Free Lancing Teacher

I teach programming, mathematics, algorithms, and competitive programming to students from High School to University.

VOLUNTEERING

I volunteered as mentor of a group of high school students in a 1 week-long **Hackathon at St. Paul's School**, organized by Harbour.Space University, where the students needed to come out with a business idea and develop it further during week, and pitch it to real experts in entrepreneurship on the last day.

EDUCATION

2020 – 2023 **Bachelor of Science**
Computer Science
Harbour.Space University

PROGRAMMING SKILLS

BEGINNER \LaTeX , GraphQL
INTERMEDIATE Php, Laravel, MySQL
Python, C++, Unix
ADVANCED Algorithms, Data Structures
Competitive programming

MACHINE LEARNING COURSES

Intro to ML (link embedded in the text)
Text Mining (link embedded in the text)

PROGRAMMING COMPETITIONS

2022 **SWERC ICPC** (swerc.eu/2021/about/)
ICPC Foundation
2021 **SWERC ICPC** (swerc.eu/2020/about/)
ICPC Foundation
2019 AND 2018 **2x Bronze Medal**
Iberoamerican Informatics Olympiad
2019 AND 2018 **2x Gold Medal**
Cuban Informatics Olympiad

COMMUNICATION SKILLS

TEACHING Intro to Programming in Python
Leagues of Code Summer Camp – 2021
LANGUAGES English (fluent)
Spanish (native speaker)
